# SUPERIOR WATER TECHNOLOGIES

DISINFECTION AND MANAGEMENT SYSTEMS FOR THE MUNICIPAL WATER INDUSTRY

## Installation and Service lines

Superior Water Technologies, Inc. has been designing, constructing, and servicing municipal water disinfection facilities and systems throughout the western United States since 2001. From projects as large as a disinfection system for the entire City of Anchorage to single wellhead treatment units, our team has installed hundreds of municipal disinfection and process chemical metering systems.

- Reservoir Mixing and Management Systems
- Chloramines
- Onsite Hypochlorite Generation
- Bulk Chemical Storage and Metering Systems
  - Ammonia, Caustic, Acid
- Design and Installation Services
- Custom Process Piping
- Instrumentation
- Custom Pump Skids
- Residual Analyzers
- Bulk Chemical Dilution Panels
- Maintenance, Repairs, Acid Washes
- Knowledgeable Parts Department
- Complete Facility Design and Building Erection

We Service **ALL** Water Industry Manufacturers' Equipment
